

***Future for Reuse in the Mid-Atlantic Region:  
Indirect Potable Reuse  
via Groundwater Injection***

**Provided by: The Joint CWEA and CSAWWA  
Water Reuse Committee, in collaboration with the  
PWEA Water Sustainability & Reuse Committee**

**FREE WEBINAR**

**When: May 25, 2017  
11:30 a.m. - 12:30 p.m.**

**TO REGISTER CONTACT**

**Cheryl Paulin

**PRESENTATIONS**

***LESSONS FROM CA: REGULATIONS & TREATMENT TECHNOLOGIES FOR  
INDIRECT POTABLE REUSE VIA GROUNDWATER INJECTION***

**by: Dr. Ufuk G. Erdal,**  
Water Reuse National Practice and Technology Leader at AECOM

The presentation focuses on the current regulatory framework, treatment requirements, and treatment technologies used in potable reuse applications in California. The extent to which treatment goals are met, as well as potential concerns/implications of overtreatment, will be discussed.

***THE HRSD SUSTAINABLE WATER INITIATIVE FOR TOMORROW (SWIFT):  
GROUNDWATER AUGMENTATION IN EASTERN VIRGINIA***

**by: J. Dano, HRSD Chief of Planning and Analysis, and  
Charles Bott, HRSD Director of Water Technology and Research**

The presentation focuses on the water challenges facing eastern Virginia and how an integrated One Water approach provides a portfolio of benefits to the region.
